Ray Bogman

PROFILE

After graduation and my internship at Marriott's Orlando World Center I moved back to Amsterdam where I worked for Marriott in Amsterdam.

In 2000 I changed profession and joined the KPN Telecom team in Amsterdam deploying ADSL internet in the Netherlands.

In 2004 I joined the KPN CERT team as Senior Security Manager until 2007.

While working at KPN I started as an entrepreneur in 2005 and started building web applications using Open Source Software like Mambo and later Joomla! and Magento for clients.

At SupportDesk my role as CTO is sharing e-commerce and Magento knowledge with all support engineers. Besides sharing I coach the team on a daily basis for quality control. Also creating product and business solutions internally or for clients.
